PROFESSIONAL SUMMARY

Software Development Instructor and Full Stack Developer with 2+ years of professional experience teaching children and teenagers aged 5 to 16 in international learning environments, while delivering scalable web and mobile applications, cloud infrastructure, and CI/CD automation solutions. Experienced in adapting teaching methods to different age groups, simplifying complex technical concepts, leading interactive coding workshops, and mentoring young learners in programming, robotics, web development, and problem-solving skills. Graduated in Software Engineering and Information Systems from Higher Institute of Computer Science and Multimedia of Kef and currently pursuing an evening Software Engineering degree at Tekup University. Holds the National Status of Student Entrepreneur (PEEJ). Winner of 10+ national and international hackathons.

SKILLS

Languages	JavaScript, TypeScript, Python (FastAPI), Java, PHP, Dart, HTML, CSS
Frontend	React.js, Next.js, Angular, Redux / Redux Toolkit
Backend	Node.js, NestJS, Express.js, Laravel, Spring Boot
Real-time	WebSockets, REST API design, Microservices
Mobile	React Native, Flutter
Databases	PostgreSQL, MSSQL, MySQL, MongoDB, SQLite Prisma, Sequelize, Drizzle ORM
Cloud	AWS (S3, Lambda, CloudFront, Route 53, API Gateway), Terraform, Docker
DevOps	GitLab CI/CD, GitHub Actions, SonarQube, Jest
Practices	Agile / Scrum, CI/CD, Test-Driven Development, Infrastructure as Code
Teaching Tools	Scratch, Microsoft Word/Excel/PowerPoint, Google Workspace, Google drive, Unplugged CS
Design & Media	Adobe Photoshop, Adobe Premiere Pro, Figma, Framer
Soft Skills	Leadership, Communication, Teamwork, Problem-Solving, Adaptability, Critical Thinking

PROFESSIONAL EXPERIENCE

Software Development Instructor (Part-Time)

03/2026 – Present

Go My Code

- Teaches international students (Morocco, Nigeria, Algeria, Tunisia & more) advanced full-stack master's degree evening courses.
- Teaches React.js, Next.js, TypeScript — component architecture, hooks, SSR/SSG patterns.
- Delivers Node.js + Express.js + MongoDB modules covering REST API design and authentication.
- Instructs AWS deployment pipelines and Docker containerisation for production-ready apps.
- Introduces Scrum methodology through real project sprints; 90%+ student satisfaction rate.

Stack: React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, AWS, Docker, Scrum

Software Development Instructor

07/2025 – Present

DOTJCOM LTD

- Teaches web development fundamentals and programming to British pupils aged 8–16 through structured evening courses.
- Delivers HTML & CSS modules covering page structure, styling, responsive design, and modern layouts.
- Instructs JavaScript fundamentals: variables, DOM manipulation, events, and interactive web applications.
- Teaches Python courses covering syntax, data structures, functions, and introductory scripting projects.
- Designs age-differentiated curriculum adapted to secondary learners, maintaining high engagement and progression rates.

Stack: HTML, CSS, JavaScript, Python

Computer Club Instructor

02/2022 – 11/2024

House of Culture – Tebourba

- Taught weekly sessions for KG–Grade 8 learners (ages 5–14) covering digital literacy, computational thinking, and beginner programming.
- Delivered block-based coding with Scratch & ScratchJr: loops, events, conditions, and sprite animation.
- Instructed unplugged CS activities (sequencing, algorithms, pattern recognition) without a computer required.
- Covered keyboard & typing skills, internet safety, digital citizenship, and responsible online behaviour.
- Introduced Microsoft Office and Google Workspace for Grades 5–8; hardware fundamentals and intro Python for upper primary.
- Introduced Adobe Photoshop (layers, editing) and Adobe Premiere Pro (video editing, timeline, exports) for creative media.

Stack: Scratch, Python, HTML, CSS, MS Office, Google Workspace, AdobePhotoshop, Premiere Pro

GIZ – THAMM-Plus · Multilingual Labour-Mobility Platform (Tunisia–Germany)

- Built multilingual React (Vite) admin interfaces with Redux Toolkit; integrated AI model APIs via Python, enabling automated matching for 300+ registered mobility candidates.
 - Developed NestJS REST APIs with Prisma ORM; managed PostgreSQL databases; enforced code quality with SonarQube + Jest, achieving 85%+ test coverage.
 - Designed and deployed full AWS cloud architecture: S3, Lambda, CloudFront, Route 53, API Gateway; provisioned infrastructure-as-code with Terraform, cutting deployment time by ~60%.
 - Configured GitLab CI/CD pipelines automating build, test, and deployment, reducing release cycle from days to under 30 minutes.
- Stack: React.js, Redux Toolkit, NestJS, Node.js, PostgreSQL, Prisma, AWS, Terraform, Docker, GitLabCI, Jest

ECOFISH · Commercial & Operational Management (Web + Mobile)

- Built React web back-office with Redux state management and Google API integrations, serving daily operations for a national fish distribution network.
 - Designed and secured REST APIs; modelled and optimised MSSQL databases (Sequelize ORM), improving query performance by ~35%.
 - Developed cross-platform React Native mobile app with offline-first architecture (SQLite, Drizzle ORM) and server sync, supporting field agents without reliable connectivity.
- Stack: React.js, Redux, Node.js, Express.js, SequelizeORM, MSSQL, React Native, SQLite, DrizzleORM

Order of Tunisian Engineers (OIT) · Engineering Services Platform (Web + Mobile)

- Built Next.js / React back-office and public landing page; integrated WebSockets for real-time notifications serving 5,000+ registered engineers.
 - Containerised 5+ microservices with Docker; configured CI/CD pipelines reducing manual release steps by 40%.
 - Developed scalable RESTful APIs (Express.js) and managed MySQL/MongoDB databases (Prisma, Drizzle ORM).
 - Delivered optimised React Native mobile app with Redux and cross-device performance tuning, rated 4.5/5 by internal testers.
- Stack: Next.js, React.js, Redux, Node.js, Express.js, Prisma, MSSQL, MongoDB, ReactNative, WebSockets

DevOps Intern2023 – 2024

Allence Tunisie

- Containerised 5+ microservices with Docker; configured CI/CD pipelines reducing manual release steps by 40%.
 - Assisted cloud deployment to AWS; documented infrastructure runbooks adopted by the ops team.
- Stack: Docker, AWS, GitLab CI, Linux

Backend Intern2022 – 2023

Electro Plus Tunisie

- Built 10+ REST API endpoints and managed relational database schemas for an internal inventory system, cutting manual data-entry time by ~20%.
 - Assisted cloud deployment to AWS; documented infrastructure runbooks adopted by the ops team.
- Stack: Node.js, Express.js, MySQL

EDUCATION		
Software Engineering — Evening Classes	Tekup University	Sep 2024 – Present
Licence in Software Engineering & Information Systems	Higher institute of computer science Kef	Sep 2021 – Jun 2024
Politics and Civil Society	Tunisian School of Politics (TSOP)	Dec 2024 – Dec 2025
Academic English B1/B2	British Council Tunisia	Sep 2018 – Jun 2020

AWARDS & COMPETITIONS	
• 1st – Promise Hackathon (US Embassy & Deloitte)	• 2nd – Hack4Justice (HiiL Innovation Hub)
• 1st – DIP Hackathon (Leaders International & redstart TN)	• 2nd – National Debate Competition (iiDebate)
• 1st – Metaverse Hackathon (Hackathon Tunisia)	• National Status Student Entrepreneur – PEEJ
• 1st – Winner Program (CSR Coworking Space)	• Finalist – Ichmilni Race (Tunisie Telecom & Enactus TN)
• 2nd – Hack4UCAR (Carthage University)	• Finalist – Safran Race (Safran & Enactus Tunisia)
• 2nd – SN MENA Hackathon (GIZ & HackUp)	• Finalist – JCI National Public Speaking
