📍 Nabeul, Tunisia

PROFESSIONAL SUMMARY

Dedicated and innovative Computer Science and Business Intelligence Teacher with a solid foundation in BI Engineering. Proven success in higher education lecturing and corporate tech-academy training, specializing in transforming complex architectural concepts (Power BI, SQL, ETL, Data Warehousing) into structured, highly accessible learning tracks. Recognized expert in active, project-based learning methodologies and digital pedagogy. Passionate about cultivating critical thinking, mentoring future engineers, and bridging the gap between academic theory and fast-evolving industry requirements.

CORE TEACHING & TECHNICAL COMPETENCIES

Pedagogical Approaches	Project-Based Learning (PBL), Active Learning, Blended Learning, Flipped Classroom, Direct Instruction
Instructional Design	Curriculum Mapping, Syllabus Development, Interactive Lab Design, Formative & Summative Assessments
BI & Data Specializations	Power BI, Advanced DAX, Data Modeling (Kimball), ETL (SSIS, Talend), OLAP Cubes (SSAS), Data Architecture
Informatics	Database Management Systems (SQL Server, Oracle, MySQL, MongoDB), Python, Java
Classroom Management	Student Motivation, Virtual Learning Environments (LMS), Mentoring, Cross-functional Collaboration

TEACHING EXPERIENCE

Computer Science & BI Lecturer IT BUSINESS SCHOOL (ITBS)

Sep 2024 – Present
Nabeul, Tunisia (Full-Time)

- Deliver core lectures, tutorials, and practical laboratory sequences in Informatics and Business Intelligence to undergraduate and engineering cohorts.
- Conceptualize and design updated course syllabi for Data Warehousing, Dimensional Modeling, and Big Data Foundations, integrating current industry toolsets.
- Supervise and mentor senior engineering students through their Final-Year Graduation Projects (PFE), ensuring technical validation and research rigour.
- Author and administer comprehensive evaluation rubrics, midterms, and project defense assessments in alignment with university academic standards.
- Serve as an academic mentor and hackathon coordinator, facilitating peer-to-peer programming workshops to enhance collective problem-solving skills.

Competencies: Curriculum Alignment, Higher Education Pedagogy, Relational Databases, BI Architecture

Online Power BI Technical Instructor GOMYCODE Academy

Jun 2024 – Present
Tunisia (Part-Time)

- Teach specialized modules in Power BI, data engineering, and business analytics to diverse cohorts of adult professionals and university upskillers.
- Facilitate engaging, synchronous online classes, utilizing cloud-based Learning Management Systems (LMS) and live code-along methodologies.
- Scaffold student learning through real-world capstone projects, guiding learners from raw data ingestion to complex DAX modeling and dashboard deployment.
- Conduct deliberate code reviews, deliver personalized qualitative feedback, and provide asynchronous office-hour support to ensure high retention and completion rates.

Competencies: E-Learning, Active Learning, Visual Analytics, Remote Classroom Management

RELATED PROFESSIONAL EXPERIENCE

Business Intelligence Consultant

SASSI SOFT

Jun 2023 – Mar 2024

Paris, France (Remote)

- Engineered enterprise-grade Power BI dashboards and robust ETL pipelines (SSIS, Talend) for international retail analytics.
- **Pedagogical Asset:** Documented end-to-end industry case studies to serve as authentic, anonymized data sources for university lab assignments.

Final-Year Intern – Data Scientist & BI (AI/NLP)

Tritux Group

Apr 2025 – Sep 2025

Tunisia

- Developed an AI-driven recruitment screening platform using Python and Natural Language Processing.
- **Pedagogical Asset:** Acquired practical machine learning methodologies utilized to teach advanced AI applications in standard IT curriculums.

EDUCATION

Engineering Degree in Business Intelligence

2026

IT BUSINESS SCHOOL (ITBS)

Higher Technician Diploma in Embedded and Mobile Systems

2021

Higher Institute of Technological Studies of Nabeul

PROFESSIONAL CERTIFICATIONS

- IBM Machine Learning Professional
- Programming Databases with Oracle SQL

TECHNICAL COMMUNITIES & EVENTS

- **IEEE Student Community** — Participated in technical workshops, conferences, and professional networking activities.
- **Orange Digital Center** — Attended innovation, entrepreneurship, and digital skills development events.
- **ISSET Nabeul Events** — Participated in academic, technical, and student engagement activities.
- **Professional Development Workshops** — Engaged in training sessions focused on technology trends and career readiness.

TECHNICAL LEADERSHIP & STUDENT INVOLVEMENT

- **Project Team Leader** — ISET Nabeul (2023–2024) → Led a multidisciplinary team in the design and development of academic software projects.
- **Peer Mentor** — ISET Nabeul (2022–2024) → Assisted students with programming, database, and software engineering coursework.

LANGUAGES

- **Arabic** — Native
- **French** — Fluent (Language of Instruction)
- **English** — Advanced (Language of Instruction)
